FRANK GILMER, Atty. for Plaintiff.

Rupture and Piles Cured Without Surgery

NO KNIFE

NO PAIN

RUPTURE-We have a cure for Rupture without resorting to a painful operation. We are the only reputable physicians in this line of work who will take such cases on a guarantee. You may deposit a draft in the First National Bank, or your Bank, instructing them to place same to our account after you have been cured. By doing th_ you are absolutely certain of a cure. If we were not perfectly sure of our work we could not do business in this way very long. We nave adopted this plan because so many have been swindled by quacks and fakers. Not one of them will permit a patient to deposit his money

until a cure has been made. When taking our treatment, patients must come to our office care each week, and if they live nearby can return home and work during the intervals. WE DO NOT USE THE PARAFFIN WAX TREAT-

MENT, AS IT IS DANGEROUS. There is no pain accompanied to our treatment and we will also give you a written guarantee if at any time in your life you should ever be bothered in any way, shape or form whatsoever of Rupture, we will treat you absolutely free of charge. In other words this wes you insurance the balance of your life against Rupture. Our sees are within the reach of every man and they are no more than you are willing and

glad to pay for a cure. EVERY DAY SOMEONE DIES FROM STRANGULATED HERNIA OR RUPTURE. Don't run the risk of a surgical operation, for every time a patient takes an anaesthetic for a surgical operation, he is tak-

ing his life in his own hands. Again, if you are operated on you are required to be in the hospital for at least two or three weeks and, after leaving, it requires very near a year before you recover from the effects of same and after going through with this severe surgical operation and running the risk of

your life, you are not guaranteed a cure, Under our treatment you are positively guaranteed a cure, and you are not required to pay for same until you are cured, so don't run the risk and delay from being cured. Str t today. For all Ruptures were small ones one day and there is more danger of strangulation in a small one than a large one, and the longer you wait you are just postponing your case that much longer and allowing your tissues to break that much farther and you are further from a cure each day you post-

pone being cured. We can cure your case without detaining you from your business, without putting you in bed, without any pain, and besides we guarantee our work and we will be through with your case and have you cured in very near the same length of time that you would be required to stay in the hospital if you were operated on.

We are the only reputable physicians in this line of work who will take such cases on a guarantee. By doing this, you are absolutely certain of a cure. You have nothing to lose and everything to gain, and if we were not perfectly sure of our work, we could not do business in this way very long, but instead, have been doing so for years. We have adopted this plan because so many have been swindled by quacks and fakers; not one of them will permit a patient to deposit his money until a cure has been effected.

Our Motto: "Advertise and let the people know what you can do, being sure to do all you advertise or promise."
